EXPERIENCE

Bewise

Junior Full Stack Developer

Buenos Aires, Argentina (remote)
Jan. 2024 - Sep. 2026

- Developed web-based asset management systems for businesses, working on both the frontend and the backend.
- Built user interfaces with React and Angular on TypeScript, and backend services with Node.js.
- Designed and maintained relational (SQL) and non-relational (MongoDB) databases to manage asset information.
- Collaborated in a development team using Git for version control, taking part in task planning and organization.

Development Intern

Aug. 2023 - Nov. 2023

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend & mobile: React, Angular, React Native, Expo

Backend: Node.js, NestJS

Databases: SQL, MongoDB
